FOUNDER PROFILE

THE OFFICIAL FOUNDER'S BIOGRAPHY

A LIFE BUILT IN CHAPTERS

Some people follow a career. Others create a journey. The story of Bobby Martins, known professionally as Roc Boss, is one of creativity, reinvention, entrepreneurship and an enduring relationship with culture.

His journey began in Nigeria, long before the businesses, brands and boardrooms that would come later. It began with music. It developed through education. It evolved through business. Today, it continues through a growing portfolio of brands under Martins Investments.

From the recording studio to entrepreneurship, from music and entertainment to fashion, hospitality and lifestyle, every chapter has contributed something to the next.

MUSIC

became the beginning.

BUSINESS

became the evolution.

CULTURE

became the constant.

LEGACY

became the objective.

BEFORE THE BUSINESSES, THERE WAS CREATIVITY

Before Martins Investments, there was Bobby.

Before the businesses, there was creativity. Before RocDizWay, there was an appreciation for music, fashion, style and culture.

Growing up in Nigeria, Bobby Martins came of age during an important period in the country's cultural development. Music and fashion were powerful forms of expression, and the creative environment around him helped shape his perspective.

Those early influences would eventually lead him into the recording industry. But music would become more than a career. It would become the first chapter of a much larger story.

FOUNDER ARCHIVE / EARLY YEARS

THE BEGINNING

Music was the first major creative expression - and the first platform for a lifetime of reinvention.

BEFORE ROC BOSS, THERE WAS BOBBY

MUSIC WAS THE FIRST EXPRESSION.

Music was Bobby Martins' first major creative expression.

In 1982, Bobby released *Dark Alley*, an album that remains an important surviving artefact from his early career. The record was released in Nigeria through His Master's Voice under catalogue HMV (N) 025.

For Bobby, *Dark Alley* represents more than a catalogue entry. It represents where the story began.

*FROM VINYL
TO VISION.*

A RECORD THAT BECAME AN ARCHIVE.

Dark Alley represents more than an early record. It is a physical document from the beginning of Bobby Martins' creative journey. Its continued appearance in specialist African vinyl and music-collecting circles means the album remains part of the historical record around Nigerian popular music.

The album is therefore best understood as an archival chapter in the founder's story - a point of origin that connects creativity, culture and the business vision that followed.

NEXT CHAPTER

Britain would become the setting for reinvention.

REINVENTION

Following his music career, Bobby relocated to the United Kingdom, beginning a new chapter. Rather than remaining defined solely by entertainment, he began developing his career in business.

The transition from artist to entrepreneur was not a rejection of the past. It was an evolution of it. The creativity, cultural awareness and experience developed through music remained important, while the focus increasingly shifted towards business, strategy, entrepreneurship and brand development.

07 / EDUCATION

FIRST-CLASS HONOURS

UNIVERSITY OF SUNDERLAND IN LONDON

Bobby studied Business Management at the University of Sunderland in London, achieving First-Class Honours. His academic development strengthened his understanding of strategic management, marketing, leadership, entrepreneurship, finance, organisational behaviour and innovation.

This combination of creative experience and formal business education became an important part of his approach to entrepreneurship.

THE NEXT CHAPTER WAS ABOUT BUILDING

TURNING IDEAS INTO BRANDS.

Music had taught creativity. Entertainment had taught experience. Business introduced another discipline: how to turn ideas into brands.

Bobby's entrepreneurial journey developed across culture, entertainment, fashion, hospitality and commerce. The objective became bigger than individual projects. It became about creating businesses with their own identities while maintaining a common philosophy.

That philosophy ultimately became the foundation for Martins Investments.

CREATE

Ideas with identity.

BUILD

Brands with discipline.

EVOLVE

Businesses with purpose.

THREE BUSINESSES / ONE PURPOSE

BUILT TOGETHER. MADE TO STAND APART.

Each company has its own identity, audience and direction. Together they form part of a larger story - a portfolio shaped by fashion, experiences and hospitality.

CREATE. BUILD. EVOLVE.

EVENTS / EXPERIENCES / LIFESTYLE

ROC*PARTIES

Roc*Parties represents Bobby's continuing relationship with entertainment, nightlife, experiences and hospitality. The founder's history dates the brand's origins to 2009.

The brand has evolved into a broader lifestyle proposition incorporating VIP events, experiences, concierge, lifestyle management, hospitality and access.

*More than an invitation.
A way into the moment.*

CONCIERGE ACCESS

CURATED SOVEREIGN

FASHION AS CULTURAL MEMORY.

RocDizWay represents the meeting point between Bobby's lifelong relationship with music, culture, fashion and business.

Music taught culture. Hospitality taught experience. Business taught strategy. Fashion brought those worlds together.

RocDizWay is built around a curated approach to designer clothing and accessories, particularly authentic archive and Y2K-era fashion.

THE PHILOSOPHY

*Every piece has a story.
Some represent an era.
Some represent a movement.
Some may never be available again.*

NOT SIMPLY TO BE SOLD. BUT TO BE REMEMBERED.

FOOD / HOSPITALITY / EXPERIENCES

GOOD FOOD.
WARM ENERGY.
REASONS TO STAY.

Roc*Away represents the hospitality dimension of the portfolio. The concept brings together food, music, atmosphere, hospitality and experience.

It forms part of the wider Martins Investments vision of creating businesses that are experiential rather than simply transactional.

THE PARENT COMPANY

A PORTFOLIO WITH A COMMON PHILOSOPHY.

The evolution from individual ventures to a wider portfolio led to Martins Investments. The vision is to build a premium parent holding company capable of developing distinctive businesses while allowing each brand to retain its own identity.

The portfolio brings together RocDizWay, Roc*Parties and Roc*Away - each with its own audience and direction, together forming part of a larger story.

CORPORATE MILESTONE

Bobby Martins Investments Limited was incorporated in the United Kingdom on 3 November 2022 and is recorded in the founder's profile as an active private limited company, with Bobby Martins as director.

AUTHENTICITY OVER IMITATION

STRONG BRANDS KNOW WHO THEY ARE.

Bobby's approach to business is built around authenticity rather than imitation. Strong brands do not need to follow every trend. They need to understand who they are, their history and their audience - and create something people can recognise and remember.

MUSIC	<i>taught creativity.</i>
CULTURE	<i>taught identity.</i>
HOSPITALITY	<i>taught experience.</i>
BUSINESS	<i>taught discipline.</i>
FASHION	<i>taught the value of heritage.</i>

"

I believe the greatest brands are built by preserving authenticity rather than simply following trends.

Music taught me creativity. Business taught me discipline. Culture taught me identity. Experience taught me perspective. And every chapter has contributed something to the next.

- BOBBY MARTINS

BUILDING BEYOND TODAY

CREATING A LEGACY FOR TOMORROW.

The vision for Martins Investments is bigger than any individual business. The ambition is to continue developing the company into a respected and enduring parent company, with a portfolio of distinctive brands spanning fashion, experiences, lifestyle, hospitality and carefully selected future opportunities.

The objective is not simply to build bigger. It is to build better - to create brands with identity, develop businesses with purpose, create opportunities, preserve culture and deliver memorable experiences.

**BUILD.
EVOLVE.
PRESERVE.
CREATE.
LEGACY.**

The greatest measure of success is not simply what can be built today. It is what can still have value tomorrow.

FOUNDER PORTRAIT

A LIFETIME IN MOTION

THE STORY CONTINUES.

A legacy is not created by one achievement. It is created through the accumulation of a lifetime.

From Nigeria to Britain. From the recording studio to the boardroom. From vinyl records to digital commerce. From music to fashion. From nightlife to hospitality. From individual ventures to a portfolio.

Bobby Martins' journey has continually evolved. One thing has remained consistent: the desire to create.

The story began with music.

It evolved through business.

It continues through Martins Investments.

The next chapter remains unwritten.
